Action required: For information

Reference : Memo No. 168, attached to *28 Feb 1964*
25X1A6c

1. We appreciate your attempts to send us the materials mentioned in reference. However, we feel that a misunderstanding may exist as to the classification of materials which may be sent to this station. We would not want to miss valuable publications as a result *25X1A6a*

2. *25X1A6a* has been certified as a Special Center with a qualified control officer and an appropriate system of communication for both dispatches and cables. This enables us to receive materials of higher classification and more restricted distribution than would normally be sent to an overseas station. We would like to add that like special centers exist in all major military commands here with whom we are in continual liaison.

3. We would appreciate your checking with the appropriate control points in Headquarters in order to determine the procedures for forwarding materials such as referred to in reference.
